FABRICIO ZÚÑIGA CALDERÓN

WEB DEVELOPER

Turrubares, San José, Costa Rica | fabriciozc25@gmail.com | +506 8698-4701

I am a junior web developer with experience in frontend and backend development, as well as database and API management and integration. I am currently expanding my skills in user experience (UX) and looking for opportunities to contribute to projects that enhance my professional growth and add value to technological solutions.

PROFESSIONAL EXPERIENCE

Nominet – Fullstack Web Intern   **August 2024 - November 2024**
CNET Technology Systems

- Participated in the development of a payroll web application, working with C# (MVC and API) to build backend functionalities and ensure system efficiency.
- Contributed to frontend development using HTML, CSS, and Bootstrap, integrating SQL Server for data management and ensuring seamless database interactions.
- Strengthened web development skills by collaborating in an agile environment, using Git and Sourcetree for version control and optimizing API integrations.

Horas TCU – University Project   **March 2024 - June 2024**

- Developed a web system for managing University Community Work hours, designed for both students and teachers.
- Implemented SCRUM methodology, contributing to frontend and backend development with HTML, CSS, JavaScript, and PHP.
- Ensured system functionality by integrating user roles, data management, and interactive features.

EDUCATION

Bachelor of Computer Science and Multimedia Technology   **2020 - 2024**
University of Costa Rica

Licentiate Degree in Computer Science and Multimedia Technology (User Experience)   **2025 - Present**
University of Costa Rica
